

Workstations

* Centric

Centric is a unique system that enables desk heights to be varied independently along a single plane, facilitating both sit and stand possibilities.

When desks are abutted back to back, a connecting rail completes its unique H-leg frame, negating the need for supporting feet. The result is less clutter beneath the desk and greater usable storage space, further enhanced by Centric's cable reticulation system.

Centric Desks

- Hybrid desking with maximum capabilities and discretely integrates ergonomics.
- Available as both fixed height and with 3 different height adjustable options. Each option accommodates varying requirements, offering convenience and frequency of adjustment.
- Unique to the system is the ability to vary heights independently along a single plane.

Specifications

- Standard worktops can be specified 25mm and 33mm thick with square or rounded corners.
- Tops are available in natural timber veneer or laminate.
- The frame system which also acts as panel and screen support creates more usable storage space and a clean open aesthetic.
- Compatible with System 45 and System 30 divisional screens.
- 10 year warranty subject to conditions.

Environment

- Centric is manufactured in accordance with international environmental standards: ISO 14001.
- All components are either reusable or recyclable.
- In certain configurations, Centric can meet the 7-out-of-7 Green Star MAT Calculator points for 6 Green Star rated interiors.
