

Ultimet

■ ■ ■ ■

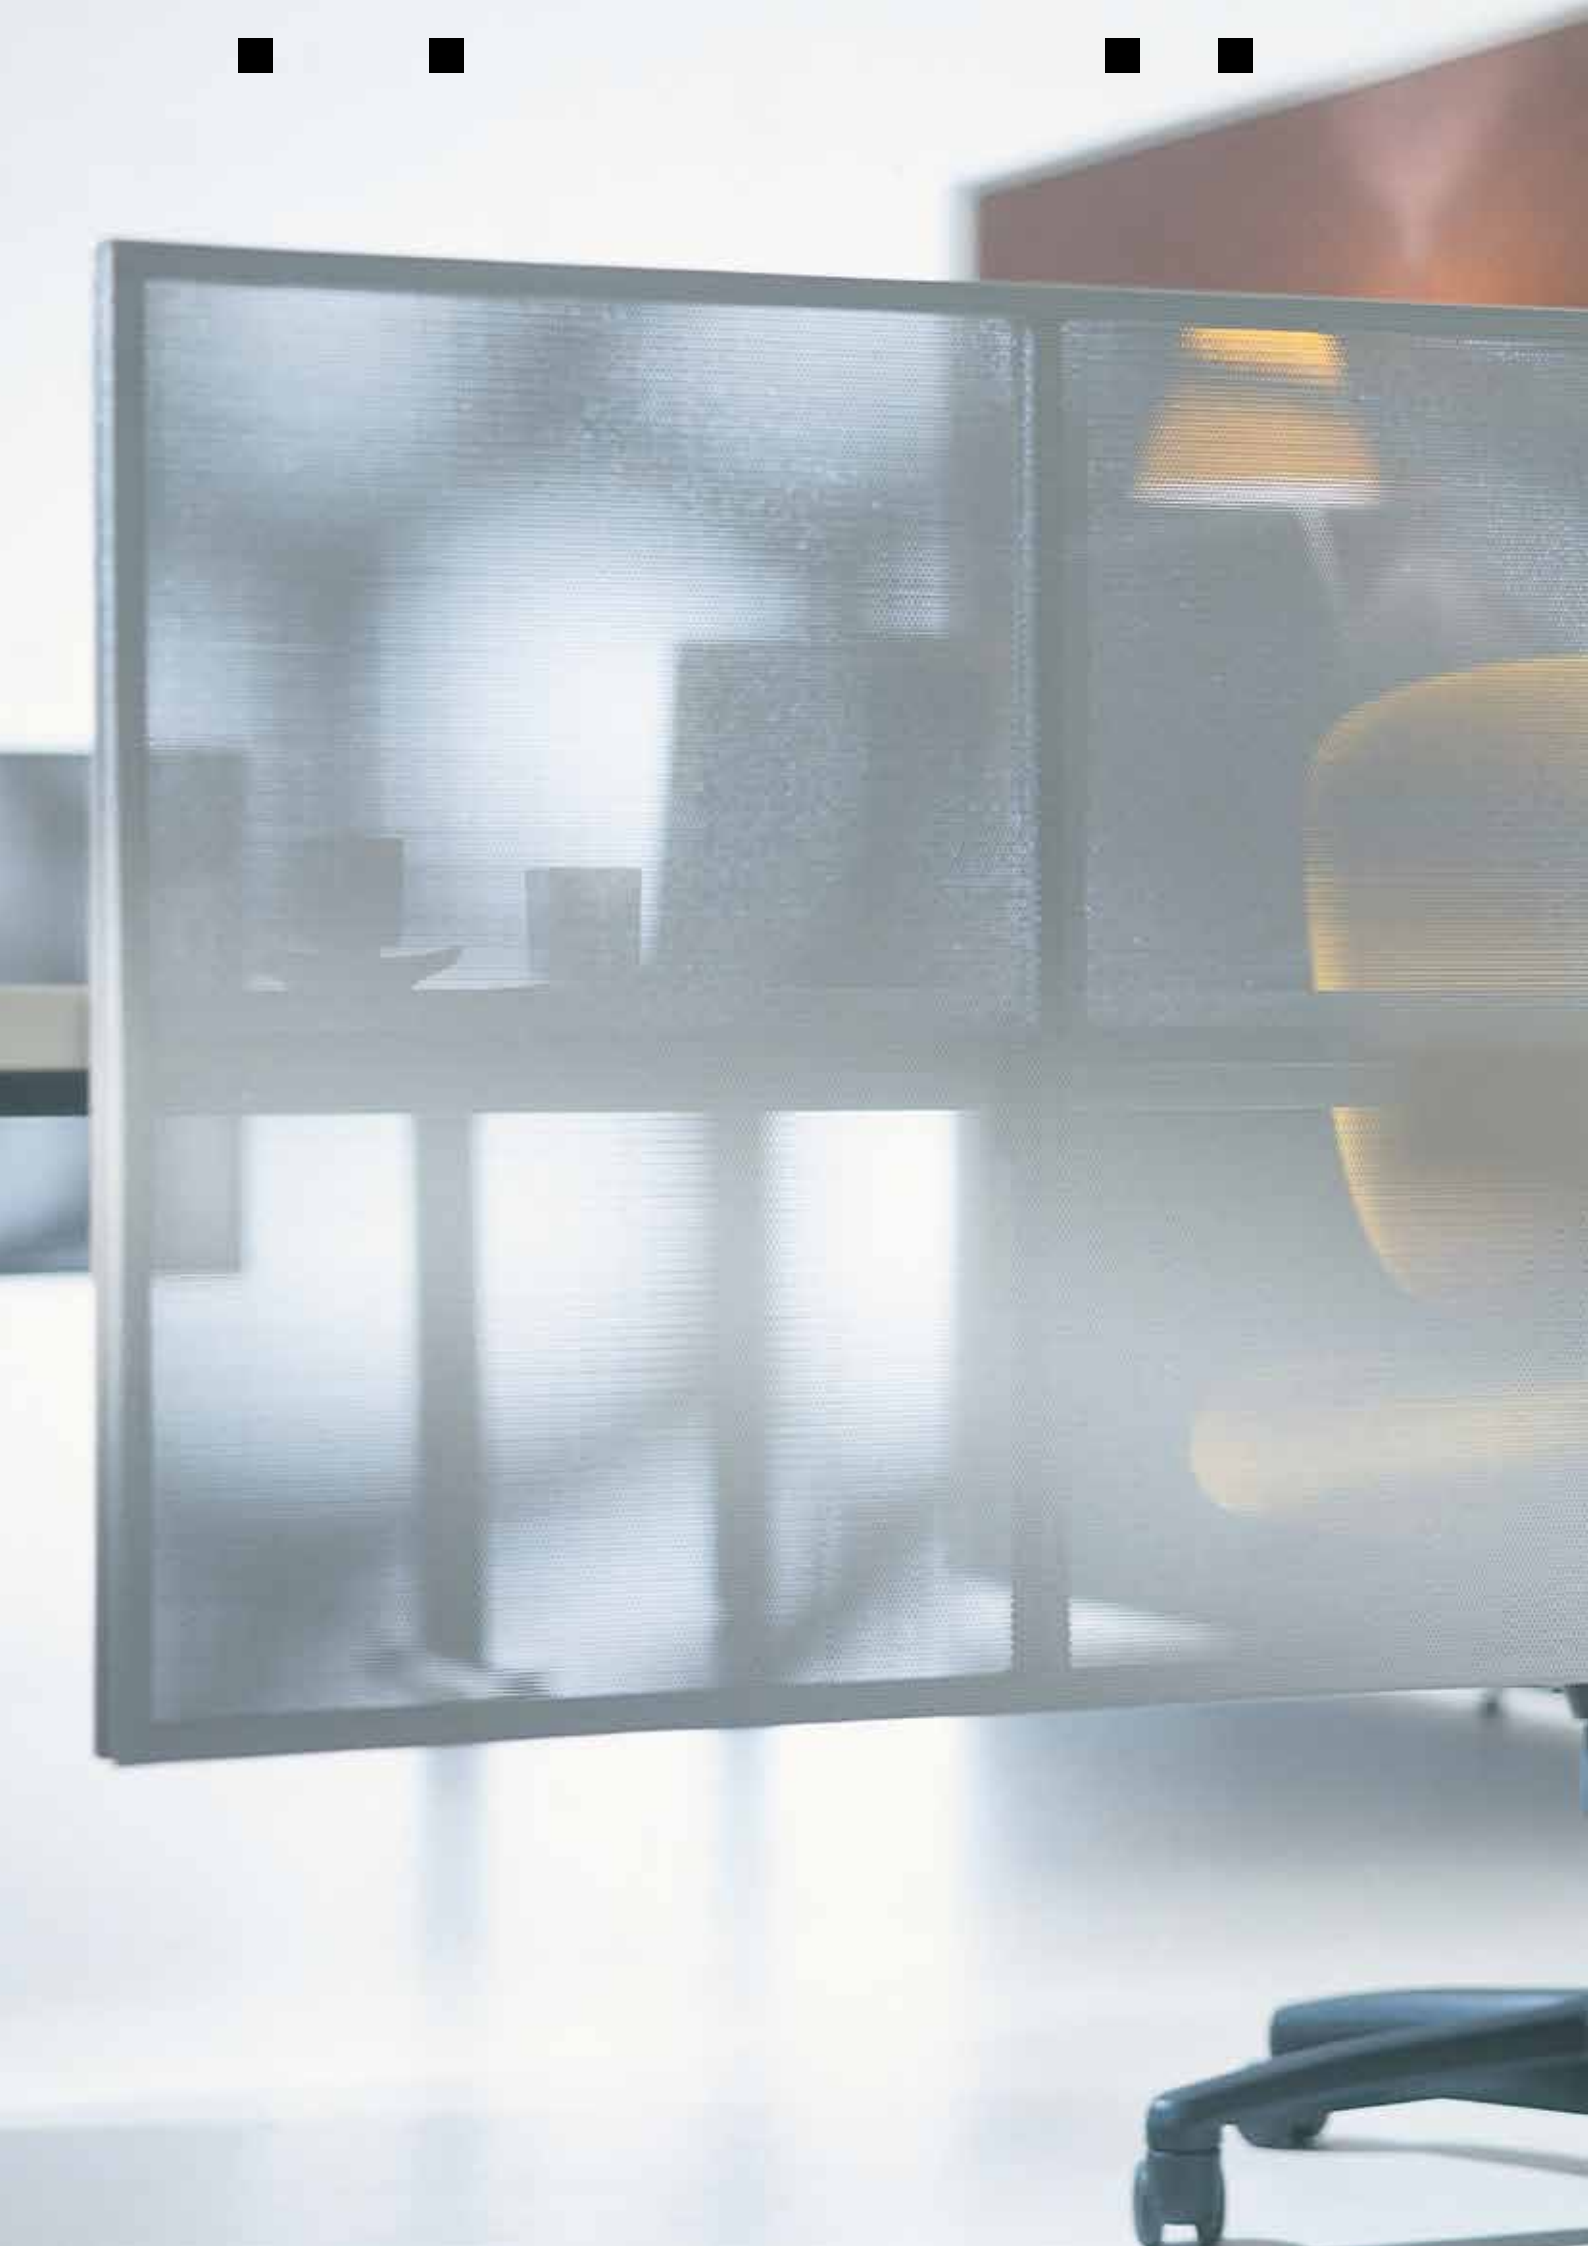

You lead a dynamic organisation. You lead special people. Schiavello Ultimet enhances your leadership - it turns your workplace into your leadership statement. Schiavello anticipates clients' workspace needs by taking into account the changing internal and external business environment and providing solutions to those needs. Schiavello integrates office technologies enabling the human interface between form and function.

Make your Ultimet statement

Ultimet is design flexibility. Use subtle colours and textures in the range to create a neutral background to highlight other elements such as your outstanding views, works of art, corporate graphics or product displays. Select bolder colours and textures to make Ultimet a standout feature.

Personalise your workspace with a wide range of tasteful and thoughtfully researched accessories. Shape and light your space, bring in nature's blooms, display your treasures, design your storage – make your own Ultimet environment.

International style

Ultimet brings international style into your office. Its precision fit and finish is Australian made, delivering the traditional Schiavello values of quality and endurance.

Ultimet is classic
contemporary design.
It makes a strong statement
about your culture. It creates
a collaborative workplace
for leaders and teams.
It promotes communication.

Your Ultimet future

As your business grows, Ultimet grows with you. From boardroom to mailroom, the flexibility of the basic structures, the expansive range of screens, worksurfaces and storage, and the wide selection of functional accessories allow you to present a consistent design throughout your work environment.

The timeless elegance of Ultimet is derived from its detail. Lines are tight and precise. Shapes and edges are user friendly. Finish materials in a range of colours and textures complement any architectural style.
